

CRUCIAL DDR4 LAPTOP MEMORY

Improve laptop performance quickly and easily

Extend laptop life with more memory

There's an easy cure for slow workforce laptops: more memory. Designed to help DDR4 systems run faster and smoother, Crucial® DDR4 Laptop Memory is one of the easiest and most affordable ways to improve system performance in the workplace. Load programs faster. Increase responsiveness. Run data-intensive applications with ease and increase laptop multitasking capabilities.

Best For

Laptop and Mac® upgrades

Key Features

- 4GB, 8GB, 16GB, 32GB
- 2400MT/s, 2666MT/s, 3200MT/s
- 100% component and module tested for superior reliability
- Limited lifetime warranty¹

Make everything on workplace laptops faster

Memory is a component in computers that enables short-term data access, which laptop systems rely on for moment-to-moment operations such as loading apps, browsing multiple tabs on the web, or editing a spreadsheet. Installing more memory in a slow workforce laptop is the easiest way to improve system performance quickly.

Multitask with ease

Members of your workforce are likely using their laptops to do lots of things at once. From editing documents and reviewing presentations to creating spreadsheets and reports – all while having multiple tabs open on the internet – laptop tasks eat up RAM. This naturally leads to a performance problem: every app they run requires memory and competes for a limited pool of resources. Overcome this by installing high-density modules in each memory slot on your workforce laptops for seamless multitasking.

Install with ease – no computer skills required

With just a screwdriver, an owner's manual, and a few minutes of time, anyone can install memory – no computer skills necessary. Just watch one of our three-minute install videos, and we'll walk you step-by-step through the process.

Maximize the value of your workforce systems

At a fraction of the cost of a new system, a memory upgrade is one of the most affordable ways to increase performance. Get more out of your workforce laptops by giving them the resources they need to perform.

The Micron difference – tested reliability you can trust

As the vertically integrated consumer brand of Micron, Crucial is trusted by millions for reliability, performance, and compatibility. Unlike module assemblers, we are a Micron brand, which means we have a deeper level of engineering collaboration to squeeze every ounce of performance from our products without compromising reliability. Our superior memory products are backed by a limited lifetime warranty¹, training, documentation, and video assistance, customer support from an experienced sales network, and trusted pricing and inventory consistency. When it comes to memory, don't settle for less.

Available parts

Crucial laptop memory is available for nearly every system. View our complete offering at www.crucial.com.

Crucial® DDR4 Laptop Memory*	
Density	4GB, 8GB, 16GB, 32GB
Speed	2400MT/s, 2666MT/s, 3200MT/s
Voltage	1.2V
Pin count	260-pin

**Parts ending with an M have been specifically manufactured and tested for compatibility with Mac® systems that have upgradeable memory.*

1. Limited lifetime warranty valid everywhere except Germany, where warranty is valid for ten years from date of purchase.
